SUNDAY'S DISTURBANCE.

PUBLIC FEELING REASSURED.

ised, was a purely spontaneous eballition of feeling, jets awas the Hamamil fiftir of a few years ago, when the natives made a sudden and great disturbance owing to the murder of an Egyptian policeman by a lwe-less Italian. If the Greek had not accordinately injured the Arab on Senday no disturbance would have coorred. This was the spark which, coming as it did amidst the striking state of apprehension, inflamed the passions of the populose and lad to what was really nothing more errors than "a storm in a teacup."

The state of public fealing throughout the city yesterday was still nervous, and last sight a number of coffee-houses and tobacconists alope and other establishments, which are usually kept open until a late hour of the night, were closed by 10 colock.

Last night the dangerous quarter of the Hamamil, where the worst part of the disturbance took place on Senday afternoos, was partolled by a large number of police. There was no disturbance.

FEAR OF HENEWED DISTURSATOR.
It is commonly believed that there will be another disturbance on Sanday next, but this is very improbable, as the police have made numerous arrests among the disorderly elements of the population. On Sanday nearly 200 persons were arrested, and yesterday a similar number. Altogether up to midday too day fally 500 arrests had been made of persons who were known to have been concerned in the riot and of others who, have used threatening language.

"All Moyad" cays: — Our readers will notice
that Boropeans attach great importance to
mall incidents that court in Reypt, and
that is why any disturbance is called a riot.
It is their lack of confidence in the antires
that creates this fear in their minds. The
Exprises in general hoped that the Europeans,
being in this country, would come to a good
understanding with the natives, especially
with the Mollenis, for the Expytiens are all
awars that no happiness or progress can
be obtained except by peace and harmony.
A party of the Europeans of Egypt, however,
do not understand this fact or perhaps do
not want to greap its import.
The general impression is that the Government is in a great-measure to be blassed for
the present state of feeling, because it has

REPORT OF THE DIRECTORS.

The directors pre-ent herewith to the Shareholders their Report and Balance Sheeg for the pariod dating from the incorporation of the Company to the 30th Spotember, 1906, accompanied by the Anditors' Report in complision with the requirements of the Companies Act, 1900. The above period is short of a fall financial year, but complete as importantative of the Company's affairs, which, as not and is a convenient date for summarising the pristino of the Company's affairs, which, as no prospects has been issued, the Directors consider the Shareholders will desire to have placed before them with as little delay as possible.

The take cutrasted to the Directors has comprehended the direction of distinct undertakings, namely, the cultivation and the sale of irrigated lands, the boring of wells, the construction of the Railway from the Nile to Khargab, and the exploitation of the earthy and other minerials of the Western Oasse—all these several undertakings being interdeposition and and contrained the description of the art and contributory to the successfulworking of the whole.

of the whole.

The operations of the Corporation are, in the opinion of the Directors, calculated to prove lighly remomentave to Shareholders, by bringing about a state of prosperity, which competent observers of the conditions obtaining in the Western Oasis of Egypt have long recognised as practicable, and which will result in the repeopling of the large areas comprised in the Corporation's Concessions, and render the communities dwelling therein not as at present, morely self-sentantine, but capable of the large production of commondities suitable forexohange with those of Western Europe.
